

□ Yoshio TAKAHASHI, MEd

➤ Academic Career

- Graduated Master's program of the University of Tokyo in 1994
- Assistant professor of Nagoya University in 1998-2008
- Associate professor of the University of Tsukuba from 2008

➤ Research Theme

My research interest is migration of Japanese athletes. I am especially interested in reasons of their migration.

I had published the cases of male baseball and soccer players and the case of female soccer players. I also try to analyze the relationship between migration and career development.

The number of players who move to Asian countries is rapidly increasing. The new market makes them move to developing football countries. I am watching real change of the situation around the Japanese players.
