

**Government-commissioned project (Japan Sports Agency / Japan Sport Council)**  
**TIAS post-2020 Legacy International Forum**

**– “Moving” Sport and Olympic and Paralympic Education –**

SPORT FOR TOMORROW (SFT), an international contribution through sport initiative developed through Tokyo 2020 Olympic and Paralympic Games, promoted international exchange and cooperation through sports under a consortium of public-private partnerships for eight years (2014 to 2021). We will continue to address the needs and challenges in sports and society in the world today, by fostering human resources in Japan (both domestically and globally) while inheriting and advancing Olympic and Paralympic legacy. This forum invites graduates of the Tsukuba International Academy for Sport Studies (TIAS > TIAS2.0: <https://tias.tsukuba.ac.jp/tias2/>) from University of Tsukuba (dated back to 2015), other stakeholders to discuss future of SFT development and growth through exchange of ideas & collaboration.

Date : Friday, December 16, 2022, 17:00-19:00 [JST]
